

PROGRESSIVE MASSACHUSETTS
2026 Legislative
ENDORSEMENT QUESTIONNAIRE

Candidate: Connor Murray

Office Sought: State Representative, 18th Essex

Party: Democrat

Website: www.murray4ma.com

Social Media Handles: @murray4ma

OVERVIEW

We view our questionnaire as an educational resource, for both candidates and voters, on progressive approaches to the issues. It provides candidates the opportunity to address a number of important issues beyond the surface talking points and provides progressive voters an extremely valuable resource when making a decision.

Our Questionnaire starts with an “About You” section and ends with an opportunity for you to include additional remarks beyond what we asked.

The bulk of our questionnaire is focused on the issues outlined in our [Progressive Platform](#), which also inform our [Legislative Agenda](#). We are interested in your overall philosophy as well as your views on specific policy and legislation.

Each section features charts or graphs (with links to sources) that illustrate one or more facets of the issue under discussion.

*Each section contains open-ended questions and YES/NO questions. **If the question is a YES/NO question, please answer either YES or NO.** If you leave a question blank, your answer will be recorded as a NO. Feel free to expand your answers, but **please keep answers < 150 words** and use your own words (we want human-generated answers, not AI-generated).*

Issue Subsections:

- A. Revenue and Taxation
- B. Jobs and the Economy
- C. Education
- D. Health Care
- E. Housing
- F. Community Safety
- G. A Humane Immigration System
- H. A Welcoming Society
- I. Good Government and Strong Democracy
- J. Sustainable Infrastructure and Environmental Protection

I. About You & Your Governing Approach

1. Why are you running for office? And what would be your top 3 priorities if elected?

I'm running because I believe my neighbors across the four towns of the 18th Essex District - Andover, North Andover, Tewksbury, and Boxford - deserve a strong voice advocating for their needs on Beacon Hill. The Trump administration is systematically dismantling our nation's core democratic institutions, and our state government has an ethical duty to meet the moment with fire. It must uplift the working class, protect the rights of immigrants, and actively resist all efforts to undermine the Commonwealth's autonomy.

My top priorities are: Single payer healthcare (eliminating costs and time spent negotiating insurance), the climate superfund act (promoting environmental justice and equitably funding an efficient transition to clean energy), and legislation to oppose unconstitutional overreach and funding cuts by the federal government (especially in the area of immigrant rights and protections).

2. What prepares you to serve in this capacity?

My experience as a public servant, advocate, and community leader has prepared me to serve effectively in the legislature. Through my work in local government and community organizations, I have collaborated with residents, businesses, educators, labor leaders, and advocacy groups to solve problems and improve people's lives. These experiences have taught me how to listen, build consensus, and navigate complex challenges.

Equally important, I am deeply connected to the communities I hope to represent. I understand the concerns residents raise every day because I hear them directly. I believe effective representation requires both a strong understanding of policy and a commitment to being accessible and responsive to constituents.

3. Do you consider yourself progressive, and if so, how would you define “progressive”?

Yes, I identify as progressive. To me, being progressive means believing that the government has a responsibility to create opportunities, protect fundamental rights, and ensure that everyone has the opportunities to thrive regardless of their background or income. It means addressing systemic inequities rather than accepting them as inevitable.

A progressive approach truly centers working people, strengthens democracy, protects civil rights, expands access to healthcare and education, combats climate change, and ensures that economic growth benefits everyone, not just those at the top. It also means being willing to challenge the status quo when existing systems are consistently failing the people they are meant to serve.

A politician earns the label of “progressive” by proving they have the backbone to fight for a better future even when it presents great personal and professional challenges.

4. What do you view as the biggest obstacles to passing progressive policy at the state level, and how do you plan to overcome these obstacles?

One major obstacle is the gap between broad public support for many progressive policies and the political will needed to advance them. Too often, important reforms stall because of institutional inertia, competing interests, or a lack of public engagement in the legislative process.

To overcome these challenges, I would focus on coalition-building both inside and outside the legislature. Successful policy change requires legislators, advocates, labor organizations, community groups, and residents working together toward shared goals. I also believe transparency and public education are critical. When people understand how policies affect their daily lives, they are more likely to participate, organize and actually advocate for change.

5. What is one policy pioneered by another state (or at the municipal level) that you would like to see Massachusetts adopt?

One of my biggest priorities is the passage of “Make Polluters Pay” in Massachusetts. This is shorthand for a climate change superfund, which is one of the policies I worked incredibly hard to help pass and implement during my time as an environmental lobbyist in New York State. It has also been passed in Vermont. Requiring this level of accountability for climate change and environmental pollution by the industries that are vastly responsible for the harm is a real step forward to addressing the root causes of the ecological damage we are now seeing across the world. The funds could also be used in meaningful ways to advance our climate goals and respond to environmental justice crises.

6. Provide an example of a time that you built a broad coalition to achieve a desired outcome.

I jumpstarted Iona University’s activist wing by bringing together multiple different student organizations and interest groups to participate in the March to End Fossil Fuels in New York City in 2024. I recognized that the theme of environmental protection was shared among these groups, whether they were Greek organizations, religious groups, or environmental science clubs, but that they rarely came together to actually address the core issues. Starting with the March, I helped found a coalition of students and faculty across campus who were willing to travel with me to rallies and join me in lobbying legislators in Albany for an environmentally sustainable future we could all be proud of. We gained such traction that Iona recommitted to fossil fuel divestment upon my graduation. I am proud to say that this movement has continued since I moved back to Massachusetts.

7. (For incumbents only) Each year, Progressive Massachusetts compiles a scorecard of key roll call votes, available at <https://scorecard.progressivemass.com>. Please use this space to explain any discrepancies between your votes and the progressive position.

8. (For challengers or candidates in open races only) How do you see yourself as similar to or different from the current holder of the office you are running for?

I share many of the values that have guided State Representative Tram Nguyen's service, particularly her commitment to working families, immigrant communities, civil rights, and expanding opportunity. She has been consistently accessible and available to her constituents, and I have great respect for the work she has done on behalf of the district.

At the same time, I will bring my own experiences, perspectives, and priorities to the role. I am particularly focused on government transparency, affordability, healthcare access, and strengthening constituent engagement. My goal is to build on the progress that has been made and inspire renewed progressive energy in the 18th Essex District.

II. The Issues

A. Revenue and Taxation

Although Massachusetts has developed the moniker of “Taxachusetts,” our history shows the opposite. Between 1977 and 2016, Massachusetts [reduced state taxes](#) by more than all but two other states. Because of income tax cuts enacted between 1998 and 2002, Massachusetts lost over \$4 billion in tax revenue *each year*—\$4 billion not invested in our roads, bridges, schools, parks, and services. Such cuts to the state income tax, combined with [low corporate income taxes compared to other states](#), have meant increasing reliance on regressive taxes and fees and curtailing our ability to invest in vital infrastructure. It also restricts legislators’ ability—and willingness—to pass new and visionary legislation, as there is a continual shortage of funds for existing priorities.

Although we saw a welcome shift when MA voters passed the Fair Share Amendment and added more progressivity to our tax code, the Legislature in 2023 voted to give tax cuts to multi-million-dollar estates, large corporations, and day traders, blunting the full impact of the win. We cannot tax-cut our way into competitiveness; MA strengthens our competitiveness when we invest in our people and infrastructure.

Moreover, Massachusetts faces the threat of steep federal budget cuts, but given that we have the same GDP as the country of Sweden, we have the ability to raise the revenue to meet needs if we have the will to do so.

Even with the recently passed Fair Share Amendment, the top 1% still pay a lower effective tax rate than the bottom 95%.

Even as corporations are securing an increasing share of total income, their share of taxes has been falling.

1. What principles do you bring to considerations of state revenue and tax policy? How should we raise more revenue to adequately fund our communities for the future?

Massachusetts cannot build an affordable, equitable, and prosperous future if we continue to underinvest in our communities. I believe our tax system should be fair, transparent, and progressive, asking those who have benefited the most from our economy to contribute their fair share.

We should prioritize genuine investments in public education, transportation, healthcare, housing, climate resilience, and local aid. To do so, we must close corporate tax loopholes, ensure multinational corporations pay taxes on profits earned here, evaluate ineffective tax expenditures, and explore additional progressive revenue sources. The Fair Share Amendment demonstrated that voters support asking the wealthiest residents to contribute more when those revenues are dedicated to public needs. Strong public investments make Massachusetts more affordable, more competitive, and a better place to live and work.

2. Optional/As Applicable: Please indicate work you personally have done to advance your principles on revenue and taxation (legislation, community work, published writings, etc.).

I supported the Fair Share Amendment in 2022, and I support an expansion to our progressive taxation system today. While my work directly on this subject is limited, I have been proud to work for other candidates and legislators who share my values over the past several years.

3. **Corporate Tax Breaks.** Corporate tax breaks cost Massachusetts [more than \\$1 billion in foregone revenue](#) each year. Which of the following steps would you support?

- a. Repealing any tax break that does not provide the intended benefits in a cost-effective manner? **YES (after sufficient economic analysis and review)**
- b. **review)**
- c. Establishing sunset dates for all tax breaks to require periodic review? **YES**
- d. Ending the current sales tax exemptions for aircraft and aircraft parts, which costs the Commonwealth approximately [\\$30 million](#) each year? **YES (although I would emphasize the need to focus specifically on private aircrafts and parts only used in private aircraft manufacturing. As far as I can see, there is absolutely no viable reason for this tax exemption, and eliminating it should be an important first priority.)**

4. **Corporate Disclosure.** Would you support legislation to make publicly accessible the reports that are already filed annually by publicly traded corporations, detailing their sales, profits, taxable income, and taxes paid? **YES**

5. **Corporate Fair Share.** Large multinational corporations like Amazon and Walmart hide significant profits offshore in order to avoid paying taxes here in Massachusetts and in other states. Would you support legislation to increase the amount of offshored corporate income subject to MA's corporate income tax to 50%, the maximum allowable amount and the amount taxed by most of our neighboring states? **YES (currently planning to co-sponsor H.3110)**
6. **Taxing Extreme Wealth.** Would you support the establishment of a Massachusetts wealth tax, which applies only to extremely rich taxpayers (with a threshold of at least \$100 million) and taxes them on a percentage (e.g., 1% annually) of their wealth above the threshold? **YES**
7. **Digital Ads Tax.** Would you support imposing new tax targeted at large companies that amass our personal data, either through a data-mining excise tax or a tax on digital advertising, as introduced or passed in states like New York and Washington State? **YES**
8. **Preventing Regressive Tax Cuts.** Massachusetts needs to raise new revenue to advance a progressive agenda. At the same time, we also need to fight regressive tax cuts that weaken our public services.
 - a. MA stands to lose hundreds of millions of dollars in revenue each year due to corporate tax cuts in Trump's Big Ugly Bill that will automatically enter the MA tax code. Do you support permanently decoupling the state tax code from these federal changes? **YES**
 - b. Will you oppose the corporate lobby's ballot question to reduce the state income tax, a measure which would cost the state \$5 billion a year? **YES**
 - c. Will you oppose the corporate lobby's ballot question to reform the state tax collection cap law (62F) in order to make the state more frequently hit the cap and lose out on critical investments? **YES**
9. **Rainy Day Fund.** Massachusetts will see significant budget cuts next year due to Trump's Big Ugly Bill. Would you support using 15% of the rainy day fund in order to prevent cuts? **YES**
10. **PILOT Reform.** Do you support enabling cities and towns to require large tax-exempt not-for-profit institutions (i.e., with property valued at or above \$15M) to make payments in lieu of taxes to the municipality equal to 25 percent of the amount that would be paid if they were not exempt? **YES**
11. **Public Bank.** Would you support the creation of a Massachusetts public bank chartered to provide cost-effective financing for small businesses and municipalities, land trusts and cooperatives, and climate adaptation/remediation projects? **YES**

B. Jobs and the Economy

Massachusetts ranks as one of the top ten [most unequal states](#), as the gains from economic growth have disproportionately benefited the already well-off. Compounding this, we are one of the most expensive states in the country for [health care](#), [housing](#), and [child care](#), all of which strain wages. A strong economy depends on strong wages, as workers spend and help local economies thrive. Although Massachusetts now has a \$15 minimum wage, a living wage for a single adult without children is now [\\$27.89 per hour](#).

In recent decades, unions have been under attack nationally. However, unions played—and continue to play—a pivotal role in creating a strong middle class. With weaker unions (or no unions at all) come weaker social and economic rights and an imbalanced economy. Strengthening the rights and power of labor is essential to an economy that works for all.

Productivity has grown significantly since the 1970s, but it is not being reflected in higher wages.

<https://archive.massbudget.org/reports/swma/>

The minimum wage in Massachusetts is well below a living wage. ([Source](#))

	1 Adult			2 adults (both working)		
	0 children	1 child	2 children	0 children	1 child	2 children
Living Wage	\$30.58	\$58.26	\$76.55	\$19.63	\$31.61	\$39.61
Poverty Wage	\$7.67	\$10.40	\$13.13	\$5.20	\$6.57	\$7.93
Minimum Wage	\$15.00	\$15.00	\$15.00	\$15.00	\$15.00	\$15.00

1. Share your principles and proposals regarding creating good-paying jobs for all and reducing inequality in the Commonwealth.

Every worker deserves the opportunity to earn a living wage, support their family, and retire with dignity. While Massachusetts has a strong economy, too many workers are struggling to keep up with rising costs for housing, healthcare, childcare, and other essentials. Economic growth should benefit everyone, not just those at the top.

I believe strengthening workers' rights is one of the most effective ways to reduce inequality. That means raising wages, protecting collective bargaining rights, combating wage theft, expanding paid leave and workplace benefits, and investing in apprenticeship and workforce development programs. We should also continue supporting union jobs in infrastructure, clean energy, education, healthcare, and public service sectors.

A stronger middle class depends on empowering workers and ensuring that economic prosperity is broadly shared across all communities.

2. Optional/As Applicable: Please indicate work you personally have done to advance your principles on creating good-paying jobs for all and reducing inequality (legislation, community work, published writings, etc.).

Throughout my campaign, I have consistently advocated for policies that strengthen workers rights and protections. If elected, the very first bill I intend to sponsor is An Act to protect injured workers, which would update the workers compensation law to prevent employer retaliation. We also need to protect workers from wage theft, support collective bargaining, expand access to healthcare and childcare, and create pathways to family-sustaining careers. As a working person, I have come to understand the urgency of these needs firsthand, and I will commit myself to progress on Beacon Hill.

3. **Livable Wages.** Although Massachusetts now has a \$15 minimum wage, that is still not a living wage in much of Massachusetts, and \$15 has lost a lot of value due to high inflation. Do you support the following steps...?
 - a. Raising the minimum wage to \$20 per hour? **YES (we need to maintain pace with the rate of inflation so these adjustments are important in due time, but my main priority as a legislator is implementing permanent solutions to lower the overall cost of living so each dollar has more value and we do not need to return to this question so frequently).**
 - b. Eliminating subminimum wages? **NO (I am a democratic absolutist, and I believe that in light of the Question 5 results from 2024, legislators have a responsibility to trust the will of the people who elected them on that issue for the time being.)**
 - c. Ensuring that the minimum wage law applies to municipal workers? **YES**

- d. Indexing the minimum wage to inflation? **YES**
4. **Wage Theft.** Do you support holding businesses responsible for the wage violations of their subcontractors when the work they do is substantially connected to the company's operations? **YES (given there was negligence or no genuine attempt to correct violation)**
5. **Paid Leave for All Workers.** In 2018, MA passed the strongest paid family and medical leave law in the country. However, the law did not include municipal workers or graduate student workers. Would you support extending the law to make sure that all workers have access to these vital benefits? **YES**
6. **Paid Time Off.** The US is the only advanced industrial country where workers are not guaranteed paid time off. Would you support legislation to require employers to offer full-time employees at least two weeks of paid time off each year, which they can use for any reason with no loss of pay? **YES**
7. **Right to Strike.** Would you support legislation to legalize the right to strike for public employees (with the exception of public safety personnel) after six months of failed negotiations with their employer? **NO No (In the case of teacher strikes, I believe an interruption to K-12 education would be detrimental for working families across the state due to interrupted childcare. Legalization of strikes also eliminates their impact as a last-ditch tool of unions to bring attention to a cause by effectively normalizing use of the tactic. However, I am planning to meet with union members and leaders to get perspective on this issue, and I am also exploring legislation modeled after European laws surrounding general strikes which impact almost all industries across the Commonwealth, including public employees, as I believe the urgent need for societal pressure requires solidarity amongst entire communities (as recently demonstrated in Minnesota)).**
8. **State House Unionization.** Would you support legislation to extend collective bargaining rights to State House staff? **YES**

C. Education

Massachusetts parents and caregivers face the [highest child care and early education costs of any state in the US](#). The average annual cost of infant care in Massachusetts is more than half of what a full-time minimum wage worker earns in a year. These costs are prohibitively expensive for low- and middle-income families, who are forced to choose between making ends meet and saving for the future on one hand, or affording child care on the other.

Public education plays a fundamental role in democracy, cultivating informed, well-rounded community members and providing the knowledge and skills needed for economic mobility and opportunity. Although our public education system gets high marks overall, it remains one of the [most unequal](#) in the country, with significant opportunity and resource divides based on income and race. In 2019, Massachusetts passed the Student Opportunity Act to update the formula for state aid to public school districts and correct these inequities, but schools have faced added strains due to the pandemic and inflation.

Public education has also been under attack by powerful corporate interests seeking to undermine public schools, teachers, and unions. These groups invest millions of dollars to promote the expansion of privately run charter schools, which siphon money from our public K-12 districts while largely excluding students with the greatest needs. Costly, mandated standardized test results are used to label schools as “failing” and justify these privatization schemes. State receiverships in struggling school districts take power away from communities and often facilitate privatization schemes that could never achieve democratic support.

At the same time, our understanding of education has also broadened. No longer do we only talk about K-12 education; rather, most of the [fastest-growing occupations](#) require education beyond a high school diploma. Massachusetts has been disinvesting from public higher education for the past two decades, leading to higher tuition costs and putting students at risk of long-term debt (if they are even still able to attend). Our public colleges and opportunities are an economic engine for local economies as well as a pathway to economic opportunity, and when that opportunity is cut off for students, we all lose out.

Standardized test scores have a very strong correlation with the income of the school district. ([Source](#))

Massachusetts has been disinvesting from higher education and shifting the cost burden onto students. ([Source](#))

Higher Education Funding Per Student Cut by 14 Percent Since FY 2001

Massachusetts higher education spending, per resident student, FY 2001-FY2022 adjusted for inflation (2024\$)

1. Please share your principles and proposals regarding public education.

Public education is one of our most important public investments. Every child, regardless of their ZIP code, family income, race, disability status, or background, deserves access to a high-quality education that prepares them to succeed and participate fully in our democracy. At the same time, we must recognize that educational opportunity begins long before kindergarten and continues through higher education and workforce training.

I support fully funding our public schools, expanding access to affordable childcare and universal Pre-K, strengthening special education services, and ensuring that educators have the resources they need to support students. We also need to make sure our school buildings and properties are optimized for public health and meet environmental standards.

Massachusetts has some of the best schools in the country, but too many disparities remain. We should continue investing in students, educators, and communities so that every learner has the opportunity to thrive.

2. Optional/As Applicable: Please indicate work you personally have done to advance your principles on public education.

During my campaign, I have promoted policies that reflect the values above, and I currently serve as the Scholarship Committee Chair for the Lowell Festival Foundation, which has given me the ability to witness the difficulty that the cost of

higher education presents to a diverse array of individuals across the Commonwealth and provide deserved financial assistance.

3. **Affordable Child Care.** Would you support legislation to make child care free for low-income families and ensure that no family has to pay more than 7% of their income on child care? **YES**
4. **Universal Pre-K.** Would you support creating universal, free Pre-K, accessible to any resident of Massachusetts, integrated into the public school system? **YES**
5. **Charter Schools.** Charter schools siphon millions of dollars for public education away from public schools and create a two-track system of public schools described by the national NAACP as “separate and unequal.” Do you support keeping the cap on charter schools? **YES**
6. **K-12 Education Funding.** Our public schools are losing out on the full benefits of increased funding due to a glitch in how the Chapter 70 formula treats inflation. The combination of several years of high inflation and an inflation cap in education funding calculations has locked in lower levels of aid to districts. Do you support fixing this gap and ensuring that our school districts get the funding they deserve? **YES**
7. **Receivership.** The Lawrence Public Schools and Southbridge Public Schools are currently under state receivership, with a state-appointed receiver assuming the powers of a superintendent or democratically elected school committee. The state takeover has not produced sustainable gains and has at times been characterized by [chronic mismanagement](#). Would you support ending the practice of state receivership and returning power to democratically elected school committees? **YES**
8. **Guaranteed Education for Incarcerated Youth.** Would you support legislation to mandate that at least 6 hours of credited daily education is available for all incarcerated, school-aged youth, including those with IEPs? **YES**
9. **Comprehensive Sex Education.** Do you support requiring public schools to provide age-appropriate, medically accurate information that is inclusive of all sexual orientations and gender identities and includes topics such as consent and the effective use of contraception? **YES (previously worked on and intend to cosponsor the Healthy Youth Act)**
10. **Inclusive Curricula.** Our educational curricula must speak to students’ lived experiences and recognize and celebrate the diversity of our Commonwealth.
 - a. **Racially Inclusive Curricula.** Would you support legislation to ensure that instruction in K-12 education shall include the teaching of accurate histories, writings, and contributions of racial and ethnic groups that have been historically underrepresented or marginalized? **YES**
 - b. **LGBTQ-Inclusive Curricula.** Would you support legislation to ensure that Massachusetts public schools include sufficient instruction on the histories, roles, and contributions of LGBTQ individuals in the history of this country and the Commonwealth? **YES**

11. **Redistributing Institutional Wealth.** Would you support legislation that would levy a small excise tax on private college and university endowments above \$1B to fund free public higher education for all in-state students? **YES**
12. **Debt-Free Higher Ed.** Would you support legislation to guarantee Massachusetts residents can graduate Massachusetts' public colleges and trade schools completely free of student loan debt? **YES**
13. **Supporting Public Higher Ed Faculty.** Would you support ensuring that adjunct faculty and part-time staff are eligible for state health care and retirement benefits? **YES**
14. **Student Protest & Academic Freedom.** Will you support the unequivocal rights of students and faculty to peaceful protest and freedom of expression in Massachusetts' public and private institutions of higher education? **YES**

D. Health Care

Massachusetts has led the way in providing near universal health insurance coverage, with [97% of the state](#) having health insurance. But until that is 100%, we haven't reached truly universal coverage or tackled critical barriers to accessing care. Disparities in insurance coverage and health care access continue to exist along income, racial, and education lines. Premiums continue to rise, and high deductibles mean that many do not get the health care they need—or suffer from long-lasting debt if they do. We still spend an oversized portion of public and private money on health care, but without necessarily achieving better health outcomes.

Cost-sharing has risen faster than claims paid by employers, and premiums are rising faster than inflation.

Private Commercial Insurance Affordability in Context, 2020-2022

Member cost-sharing and premiums increased at a faster rate than regional inflation and wages and salaries from 2020 to 2022, driven in part by fluctuations in utilization during this time period.

Source: Payor reported data to CHS, Bureau of Labor Statistics data.
 Notes: Based on Massachusetts reported member data, which may include non-Massachusetts residents. Claims amounts were adjusted for primary relative reported by payor. Reported cost sharing, premiums, and claims amounts have not been adjusted to account for benefit carve-outs, which may vary by plan. Claim represents cumulative benefits from 2020 to 2022, with 2020 claim calculations as of 12/31/2020, 2021 claim calculations as of 12/31/2021, and 2022 claim calculations as of 12/31/2022. Data for claims is reported by C/O2020 and C/O2021. See technical appendix.

Almost half of Massachusetts residents are facing affordability issues with accessing health care.

Any Affordability Issues Among Residents and their Families, Overall and by Race/Ethnicity, 2021

Over half of Black and Hispanic residents reported experiencing health care affordability issues in the past 12 months.

Source: 2021 Massachusetts Health Insurance Survey.
 Note: Any affordability issue is defined as reporting any of the following issues: problems paying family medical bills in past 12 months; family medical bill at the time of survey, spending a high share of family income in past 12 months on out-of-pocket health care expenses; and unmet family health care needs due to the cost of care in past 12 months.

*Reference group.
 *Difference from reference for relevant group is statistically significant at the 5% level.

1. Please share your values, principles, and proposals regarding health care access and equity.

Health care is a human right. No one should be forced to choose between getting medical care and paying their bills, and no family should face financial hardship because they become sick. Massachusetts has made important progress expanding coverage, but affordability, access, and health disparities remain major challenges.

I support moving to a single-payer system that guarantees coverage for every resident while reducing costs and administrative burdens. We must also strengthen community health centers, expand behavioral health services, address workforce shortages, protect reproductive freedom, and ensure that healthcare is accessible regardless of income, geography, race, gender identity, disability status, or immigration status.

Our healthcare system should prioritize patients over profits and focus on prevention, affordability, and equitable access to care.

2. Optional/As Applicable: Please indicate work you personally have done to advance your principles on health care (legislation, community work, published writings, etc.).

Throughout my campaign, I have advocated for Medicare for All, expanding community health centers, strengthening the healthcare workforce, protecting reproductive freedom, supporting school-based healthcare services, and reducing barriers to care for working families.

3. **Single Payer.** Would you support legislation to enact a single payer health care system in Massachusetts, which would guarantee health insurance as a right? **YES**
4. **Medical Debt.** States like Connecticut and Arizona have taken action, in partnership with RIP Medical Debt, to eliminate medical debt for hundreds of thousands of working-class residents. Would you advocate for similar action in Massachusetts? **YES**
5. **Full Spectrum Pregnancy Care.** Would you support requiring health insurance plans to cover all pregnancy care (including prenatal care, childbirth, and postpartum care), without any kind of cost-sharing, building on the recent mandate to require coverage for abortion and abortion-related care? **YES**
6. **Abortion Access - 1.** Young people under sixteen seeking an abortion must obtain parental consent or judicial authorization. While most young people involve their parents, many cannot, causing delays to timely medical care and counseling. Scared teens may also turn to dangerous measures: going out of state or risking their lives and health with illegal or self-induced abortion. Would you support repealing this restriction on young people's access to abortion? **YES**
7. **Abortion Access - 2.** Despite recent overdue updates to abortion care protections in Massachusetts, dozens of patients have to travel out of state every year for necessary

care. Would you support expanding abortion access after 24 weeks of pregnancy when in the best professional judgement of a licensed physician? **YES**

8. **Anti-Abortion Centers.** In Massachusetts, anti-abortion centers (also known as crisis pregnancy centers), which have a politically-motivated agenda to dissuade and delay patients from accessing abortion care, outnumber abortion clinics by more than 2 to 1. These centers scare and shame pregnant people considering abortion care and often oppose birth control and emergency contraception. Would you commit to opposing any Massachusetts government support and funding for such centers? **YES**
9. **Overdose Prevention Centers.** An essential part of addressing the opioid crisis, overdose prevention centers allow medical professionals to respond to overdoses and engage participants in medical and behavioral health services. Would you support the legalization of overdose prevention centers? **YES**
10. **Vaccination.** Would you support legislation to eliminate non-medical exemptions to the routine vaccines for children required for school entry, as our neighbors in Maine, Connecticut, and New York have already done? **NO. I am not ready to make a commitment to this issue statewide, but I would be more open to a local option. This is a controversial issue revolving around bodily autonomy, and while I fully believe in the value of vaccinations, I fear that eliminating this exemption might unfairly punish those students that no longer qualify by inadvertently forcing them out of traditional schooling.**

E. Housing

Massachusetts has a lot to offer, but that does little if people can't afford to live here. The [US News & World Report's annual state rankings](#) put Massachusetts at #40 in housing affordability (and #47 in cost of living). To rent the average 2-bedroom apartment in Massachusetts requires an income equal to [\\$41.64 per hour](#), more than twice the minimum wage. A minimum-wage worker in Massachusetts would need to [work 91 hours each week](#) to afford a modest 1-bedroom rental home at fair market rent.

Home ownership has become increasingly out of reach, as the state's median home price is [approximately \\$600,000](#). In more than 20 communities, the median home price recently [passed \\$1 million](#). Meanwhile, we have some of the [most restrictive zoning laws](#) in the country, making it difficult to build more housing to meet the needs of a growing population.

The high cost of housing has led to displacement, and in a growing number of municipalities, the local workforce can no longer afford to live there.

With rental increases far outpacing wage increases, many are left with housing instability.

The overreliance of single-family housing in suburban development, as opposed to denser or multi-family housing, makes communities unaffordable.

1. Please share your principles and proposals regarding affordable housing and housing affordability in the Commonwealth.

Massachusetts' housing crisis is one of the greatest threats to our affordability, economic competitiveness, and quality of life. Too many families are spending unsustainable portions of their income on rent or mortgages, young people are struggling to remain in the communities where they grew up, and employers are having difficulty attracting and retaining workers because housing costs are so high.

We need a comprehensive approach that significantly increases housing production while protecting tenants and preserving affordability. That means reforming restrictive zoning laws, encouraging transit-oriented development, investing in affordable and social housing, strengthening tenant protections, and supporting first-time homebuyers. Housing policy should ensure that teachers, nurses, public servants, tradespeople, and working families can afford to live in the communities they serve.

Massachusetts must build more housing at every income level while ensuring that growth is equitable, sustainable, and accessible.

2. Optional/As Applicable: Please indicate work you personally have done to advance your principles on housing (legislation, community work, published writings, etc.).

During this campaign, I have advocated for policies that address affordability, expand housing opportunities, support working families, and strengthen investments in communities across the Commonwealth. I formerly worked for the Fuller Center for Housing of Greater New York City, an organization which prioritizes affordable housing access and construction. During this time, I also chaired an advisory committee on housing affordability for young people. As a young person who currently lives with my parents (and will continue to live at home if elected) as the result of impossibly high housing costs, I have firsthand experience dealing with the Commonwealth's shortfalls in respect to housing, and it is a serious priority for me if I am elected.

3. **Emergency Shelter.** How would you evaluate Governor Healey's response to the emergency shelter crisis?

Governor Healey faced an extraordinarily difficult situation driven by limited shelter capacity and increased demand for services. While the administration took important steps to expand capacity and manage the immediate crisis, the experience has also highlighted longstanding failures to produce enough housing and adequately fund shelter programs. Going forward, Massachusetts must pair emergency response efforts with long-term investments in affordable housing and stronger communication with the municipal leaders who know their

communities best. Housing is a right in Massachusetts, and the legislature needs to take urgent action that reflects this value statement, ensuring everyone in the Commonwealth - regardless of legal documentation - has a roof over their head.

4. **Welcoming New Neighbors.** Would you support efforts to locate both long-term housing and short-term shelter in your district? **YES**
5. **Everyone Needs ID.** Would you support easing access to Mass IDs for people experiencing homelessness by waiving the \$25 fee for IDs and easing the verification requirements for youth and adults who are unhoused and seeking IDs? **YES**
6. **Local Option Real Estate Transfer Fee.** Would you support enabling all cities and towns the flexibility to design and pass real estate transfer fees that will be effective in their municipalities to raise money for affordable housing production? **YES**
7. **Green and Affordable Communities.** Would you support doubling the current Deeds Excise Tax (from \$4.56 per \$1,000 to \$9.12 per \$1,000), upon the sale of real property in Massachusetts, to create a new funding stream to be split evenly between affordable housing and climate resiliency? **YES**
8. **Rent Control.** Massachusetts residents face some of the highest and fastest-growing rents in the country.
 - a. Would you support lifting the statewide ban on rent control and enabling cities and towns to pass rent stabilization ordinances to limit annual rent increases? **YES**
 - b. Do you support the proposed 2026 statewide ballot initiative to limit annual rent increases? **YES**
9. **Tenant Opportunity to Purchase.** Would you support providing tenants of small, medium, and large multifamily properties with the right of first refusal when the owner plans to put a building on the market? **YES**
10. **Right to Counsel.** Would you support legislation to provide legal representation for low-income tenants in eviction proceedings? **YES**
11. **HDIP Reform.** The Housing Development Incentive Program (HDIP) is a multimillion-dollar annual state tax credit program subsidizing market-rate housing in Gateway Cities. Would you support reforming this program to support both market-rate and affordable housing development? **YES**
12. **Social Housing.** Social housing is publicly financed, mixed-income housing, owned by a local or regional housing authority. Would you support efforts to increase state funding for social housing initiatives? **YES**
13. **Zoning Reform.** Would you support zoning reforms to increase housing production and create more affordable and environmentally sustainable communities such as...
 - a. Requiring multi-family zoning and removing costly parking mandates around public transportation and city/town centers statewide? **YES (although the multi-family zoning aspect only works in tandem with levers to make it affordable)**

- b. Enabling communities to adopt inclusionary zoning ordinances (i.e., requirements that a certain percentage of new units in a development be affordable) by simple majority vote? **YES**

14. **MBTA Communities Law Enforcement.** Would you support measures to strengthen the law with stricter consequences for municipalities that refuse to comply, including voiding non-compliant zoning? **NO (I believe there are long-term drawbacks to emphasizing consequences over consent for municipalities. "One size fits all" mandates like the MBTA Communities Act naively disregard the objective nuances of each community that go beyond aesthetic, such as water and infrastructure capacity. Massachusetts should lead by offering beneficial incentives to municipalities that adopt inclusionary measures instead of harshly punishing those that don't comply and damaging its reputation with the citizenry as a result. Legislators that represent noncompliant towns should actively engage with residents to educate them on what this law achieves and partner with state executives to come to compromises that further the law's mission and also do not pose the potential to physically overwhelm the communities in question. In other words, I think it's time we offer a carrot instead of a stick.)**

F. Community Safety

Mass incarceration in Massachusetts has proven socially and economically destructive, breaking apart communities across the state. Even though Massachusetts has one of the lowest incarceration rates of the United States, we have some of the [starkest racial disparities in incarceration](#), a result of overpolicing and systemic biases.

Although incarceration rates in Massachusetts have gone down over the past few years as a result of policies from the 2018 criminal justice reform omnibus bills, spending on the Department of Correction has [risen](#). The average cost per year to house an individual in the Massachusetts Department of Corrections is [more than](#) \$100,000, money that could be better reinvested into the communities that have suffered from decades of misguided and racially discriminatory “tough on crime” policies. To achieve “justice for all,” we need a judicial system that does not disproportionately target communities of color and the poor and that does not criminalize public health issues such as addiction.

The correctional population in Massachusetts has declined, yet the state continues to increase the Department of Corrections budget.

Figure 14: Total expenditures for correctional institutions and average cost per inmate, inflation-adjusted to 2023 dollars

Although MA's incarceration rate is lower than the national rate, racial disparities are even more stark. ([Source](#))

Statistics (2022)	MA	US Total
Imprisonment rate (per 100K residents)	94	355
Black : White Disparity	7 : 1	4.8 : 1
Latinx : White Disparity	4 : 1	1.3 : 1

1. Please share your principles and proposals regarding community safety, police accountability, and criminal legal reform.

True public safety is built through strong communities, economic opportunity, quality education, accessible healthcare, stable housing, and effective public institutions. While law enforcement plays an important role in public safety, we must also ensure accountability, transparency, and respect for civil rights.

I support evidence-based approaches that reduce recidivism, strengthen rehabilitation, expand mental health and substance use treatment, and help individuals successfully reenter society after incarceration. We should invest in prevention, improve oversight of correctional institutions, protect constitutional rights, and ensure that our criminal legal system is fair, equitable, and focused on accountability, rehabilitation, and restorative justice.

Massachusetts has made progress in recent years, but significant racial disparities and barriers to successful reentry remain. We should continue pursuing reforms that improve public safety while promoting fairness, dignity, and opportunity.

2. Optional/As Applicable: Please indicate work you personally have done to advance your principles on community safety, police accountability, and criminal legal reform (legislation, community work, published writings, etc.).

At 15 years old, I helped found a student organization advocating for legislation to end school shootings, and have since supported investments in behavioral health, substance use treatment, workforce development, housing stability, and community-based approaches to public safety. I also support transparency, accountability, and reforms that help reduce recidivism and improve reentry outcomes. As a criminal justice major and former president of Iona University's Criminal Justice Club and chapter of the Alpha Phi Sigma Criminal Justice Honors Society, these are values I have attempted to spread to people pursuing careers in criminal justice. I have visited jails and prisons and met with national leaders in pursuit of achieving policy goals in this area. In 2024, I became a chief signatory on an article about gun control activism published in student newspapers across the country and subsequently recognized by President Biden and Vice President Harris.

3. **Police Accountability.** The 2020 police accountability law passed by the Massachusetts Legislature contained a number of steps forward, but important measures were left out. Would you support legislation to do the following?
 - a. Eliminating qualified immunity for state and local police and correctional officers so that individuals whose constitutional rights are violated can have their fair day in court? **YES (with the note that the specifics of a bill that does so must be carefully analyzed to ensure it can accomplish the goal of holding officers accountable for misconduct without sabotaging legitimate duties or opening the state up to a superabundance of spurious claims;**

either way we should ensure law enforcement in Massachusetts is sufficiently trained in civil rights to prevent negligence)

- b. Enacting the recommendations from the special legislative commission on facial recognition, to implement privacy, civil rights, and due process protections to govern police use of the technology? **YES**
- 4. **Sentencing Reform.** The 2018 criminal justice reform bill was an important first step in reducing mass incarceration. However, in our “liberal” state, incarceration rates remain much higher than they are in other countries, and sentencing laws can be even more punitive than those in states viewed as conservative. Do you support the following reforms?
 - a. Eliminating mandatory minimums for all drug offenses? **YES**
 - b. Raising the age of criminal majority from 18 to 21, in line with research that shows that young offenders served by a juvenile system are much less likely to reoffend and more likely to successfully transition to adulthood? **YES**
 - c. Decriminalizing consensual sexual activity between adolescents, by creating an exception to the statutory rape law for youth close in age? Massachusetts is one of only three states that criminalizes consensual sexual activity between two adolescents. **YES**
 - d. Eliminating the sentence of life without parole, which is costly and has been shown to be racist in its application? **YES**
 - e. Restructuring joint venture sentencing such that accomplices to murder are sentenced proportionally to their level of responsibility for a death rather than a minimum sentence of life without parole? **YES**
- 5. **DOC Oversight -- I.** Would you support legislation to establish an inspector general for the Department of Correction? **YES**
- 6. **DOC Oversight -- II.** Massachusetts legislators have the statutory right to make unannounced visits to correctional facilities run by the state. Would you commit to visiting, whether announced or scheduled, Department of Corrections facilities as a state legislator? **YES**
- 7. **Solitary Confinement.** Would you support legislation to create universal access to productive out of cell time with programming, education and vocational training for all incarcerated people? **YES**
- 8. **Prison Moratorium.** Would you support a moratorium on the construction of new prisons and jails in the Commonwealth? **YES**
- 9. **Keeping Families Connected.** Would you support eliminating the arbitrary, unnecessary restrictions on visitation rights in prisons and jails? **YES**
- 10. **Clean Slate.** The Massachusetts court system maintains a database of name-based court arraignment records, referred to as Massachusetts Criminal Offender Record

Information (CORI). Many people are trapped in poverty and shut out of jobs and housing because of the difficult process to expunge their records, even for cases that did not end in a conviction or occurred when they were teenagers. Would you support...

- a. Requiring the Commissioner of Probation to automatically seal criminal and juvenile records after the applicable waiting periods without requiring individuals to file a petition to do so? **YES**
 - b. Requiring the immediate sealing of a criminal offense if the charge did not end in a conviction? **YES**
11. **Reentry.** The Department of Correction's stated mission is to "prepare [individuals in custody] for safe and successful reentry into the community," but regularly fails to live up to that. Do you support the following measures to strengthen reentry efforts...
- a. Mandating that correctional facilities in Massachusetts assist incarcerated individuals in acquiring valid Massachusetts identification cards before their release? **YES**
 - b. Increasing funding for reentry-related programming? **YES**
12. **Gun Violence Prevention.** Will you vote YES to protect the 2024 gun safety bill on the ballot in November 2026? **YES**

G. A Humane Immigration System

Immigrants make up [18%](#) of Massachusetts's population; however, demagoguery against, or indifference to, immigrant populations has historically been a mainstay of Massachusetts politics. We too often see both Democrats and Republicans fear-monger about immigration and the border, championing policies that criminalize rather than welcome.

Since Trump took office in January, ICE has escalated its activities in Massachusetts, terrorizing immigrant communities. ICE arrests have gone up by more than [250%](#) since last year, driven by their targeting of individuals without criminal records. ICE has brutalized children, torn families apart, and engaged in rampant racial profiling.

Our immigrant communities are helping to keep our communities healthy, they are innovating and educating, and they are helping us build a better future for all of us.

Immigrants are a major part of MA's economic prosperity. ([Source](#))

OVERVIEW

1,270,500

Number of immigrant residents

\$51.8B

Immigrant spending power

\$20.4B

Immigrant tax contributions

Data year

1. Please share your principles and proposals regarding welcoming and protecting our immigrant communities.

Massachusetts has been strengthened by generations of immigrants who have contributed to our economy, culture, and civic life. Every person deserves to be treated with dignity and respect, regardless of where they were born or their legal status. I believe state and local governments should focus on serving all residents by providing assistance and support in areas of critical need (such as housing, healthcare, and education)—not acting as extensions of federal immigration enforcement.

I support policies that keep families together, expand access to legal services, protect due process, strengthen language access, and ensure that immigrant communities can safely access schools, healthcare, courts, and public services without fear. The Commonwealth should continue to stand up for civil rights and human dignity, and not a single Massachusetts tax dollar should go to supporting the Trump administration's despicable treatment of immigrants.

2. Optional/As Applicable: Please indicate work you personally have done to advance your principles on welcoming and protecting our immigrant communities (legislation,

community work, published writings, etc.).

I have engaged in consistent advocacy to end 287(g) agreements, expand the right to counsel to those detained by ICE and DHS, protect due process, and ensure that state and local resources are focused on serving communities rather than federal immigration enforcement. I am a frequent visitor to the ICE detention center in Burlington, where I have spoken several times about the need to stand up for those affected by the actions of the federal government and hold the responsible parties accountable for what has occurred in our country. I have also testified before the Joint Committee on the Judiciary in support of “An Act ensuring access to equitable representation in immigration proceedings” because I believe the right to counsel is essential to due process in these cases.

3. **Protecting Our Immigrant Neighbors.** The entanglement of state and local law enforcement with ICE’s federal immigration enforcement makes everyone less safe. To end such entanglement, would you support the following measures....?
 - a. Preventing police and court officials from inquiring about immigration status? **YES**
 - b. Prohibiting any new 287(g) agreements, i.e., agreements in which state and local law enforcement are deputized to act as ICE agents? **YES**
 - c. Calling on Gov. Healey to end the Department of Correction’s 287(g) agreement with ICE, the only such contract in New England and the only such contract in a state with a Democratic governing trifecta? **YES**
 - d. Prohibiting local law enforcement from assisting ICE such as by allowing ICE to use facilities, properties, and equipment or providing information to ICE such as relating to upcoming court appearances? **YES**
4. **Language Access.** Would you support building the capacity of key public-facing state agencies to meet the language access needs of an increasingly diverse population by standardizing and enforcing language access protocols and practices? **YES**
5. **Immigrant Legal Aid.** In 2025, the MA Legislature created a new fund to provide cost-free legal services to immigrants at risk of deportation. Would you support increasing the funding for the program and codifying the fund into law? **YES**
6. **Community Trust and Accountability.** Would you support legislation to ban former ICE or Border Patrol agents from serving as police officers, teachers, or other public employees in Massachusetts? **YES, if they have been convicted of civil rights violations or abuses of power in their role with the DHS.**

H. A Welcoming Society

Our commonwealth is at its strongest when we recognize and celebrate the diversity of our population.

Massachusetts has often been a leader on LGBTQ rights, being the first state to legalize same-sex marriage and having passed a strong trans anti-discrimination law (with additional protections for health care passed more recently). However, efforts to ban LGBTQ-friendly books are not just a "red state" problem but unfortunately far too common here at home.

Although Massachusetts likes to view itself as a leader in social progress, racial discrimination has been prevalent in our history and in our present, and a legacy of oppression and expropriation of indigenous communities remains unaddressed in policy and iconography.

In 2022, there were 45 attempts to restrict access to books in MA, with 57 titles challenged. ([Source](#))

1. Please explain your principles and proposals relative to building a welcoming society.

Massachusetts is strongest when every resident feels safe, respected, and able to fully participate in community life. Our diversity is one of our greatest strengths, and government has a responsibility to protect the rights and dignity of all people, regardless of race, ethnicity, religion, sexual orientation, gender identity, disability status, immigration status, or economic background.

I support policies that promote inclusion, combat discrimination, protect civil liberties, and ensure that everyone has equal access to opportunity. This includes defending LGBTQ rights, supporting culturally inclusive education, protecting privacy rights, recognizing the contributions of historically marginalized communities, and ensuring that public institutions are welcoming and accessible to all.

Building a more welcoming Commonwealth requires not only opposing discrimination, but actively creating communities where everyone can thrive and feel they belong.

2. Optional/As Applicable: Please indicate work you personally have done to make MA a more welcoming place for all.

I am an advocate for gender and sexuality equality, immigrant rights, inclusive public education, voting rights, reproductive freedom, and policies that strengthen equity and opportunity for all residents. As a member of the board of the Lowell Festival Foundation, I help manage the Lowell Folk Festival, one of our Commonwealth's largest cultural gatherings each year, and in that role it is my responsibility to ensure every person visiting the festival feels welcomed and represented regardless of their background.

3. **Right to Read.** Right-wing efforts to ban books from school or public libraries disproportionately target books about LGBTQ people and communities of color. Would you support legislation to prevent book removal due to personal or political views in public and school libraries, require public libraries to adopt the American Library Association's Library Bill of Rights, and protect librarians from retaliation? **YES**
4. **Data Privacy.** In recent years, we have seen the dangers of unregulated data markets: right-wing groups tracking women seeking abortion care, domestic abusers tracking partners/exes, ICE agents tracking immigrants, and much more.
 - a. Do you support passing legislation to ban companies from selling our sensitive data, such as biometric and location information? **YES**
 - b. Do you support applying a private right of action to privacy laws, to ensure consumers have access to the civil court system when companies violate the law? **YES**
5. **Indigenous People's Day.** Would you support legislation to replace Columbus Day with Indigenous Peoples in state statute as the recognized holiday on the second Monday of October? **YES**
6. **School Mascots.** Would you support legislation to prohibit the use of Native American mascots in Massachusetts public schools? **NO. I believe such a change must occur at the local level of government.**

I. Good Government and Strong Democracy

A strong democracy depends on a transparent and representative government and an engaged public. Too often, however, we see centralized, unaccountable power and barriers to participation. An undemocratic, centralized power structure on Beacon Hill makes it easier for lobbyists to target the top and undermine the system. Despite recent reforms, a weak public records system stymies government accountability: MA is one of only two states where all three branches of state government claim to be exempt. A strong democracy requires an engaged electorate, but voter turnout in midterm elections, and especially local elections, remains low. Although election modernization legislation in 2014, 2018, and 2022 helped bring much-needed reforms, we still lag behind states in New England and around the country in making voting accessible (Maine, for instance, has allowed for Election Day Registration since the 1970s).

A centralized power system, a skewed campaign finance system, and restrictive voting laws together help create a situation in which our elections are the [least competitive in the country](#).

MA has the least competitive elections in the country. ([Source](#))

State Legislative Competitiveness Index in Massachusetts, 2010-2024					
Year	Open seats	Incs. in contested primaries	Major party competition	Competitiveness Index	Rank
2010	17.0%	8.4%	48.0%	24.5	39 / 44
2012	5.0%	10.0%	33.0%	16.0	44 / 44
2014	11.0%	9.6%	38.5%	19.7	39 / 44
2016	6.5%	10.7%	23.0%	13.4	44 / 44
2018	12.0%	11.4%	30.0%	17.8	44 / 44
2020	7.5%	12.4%	21.0%	13.6	44 / 44
2022	12.0%	11.9%	30.0%	18.0	44 / 44
2024	9.5%	9.9%	20.0%	13.1	44 / 44

Lower-income, ethnically diverse municipalities have lower voter turnout than whiter, more affluent communities, leading to reduced voice in state politics.

<u>Municipality</u>	<u>Turnout (Nov 2022)</u>
Lawrence	22.8%
Springfield	24.9%
Lowell	29.7%
Chelsea	31.7%
New Bedford	33.0%
Fall River	33.0%
Brockton	33.1%
Southbridge	34.3%
Holyoke	34.4%
Lynn	35.0%

[Source: MassLive](#)

1. Please explain your principles and proposals relative to good government and strong democracy.

Strong democracy depends on trust, transparency, and meaningful public participation. Too many people feel disconnected from government and uncertain whether their voices are being heard. Rebuilding trust requires elected officials to be accessible, responsive, and honest about their decisions and governmental processes.

I believe residents deserve regular communication from their elected representatives, meaningful opportunities to provide input, and access to information about how government operates. I support strengthening public records laws, modernizing legislative procedures, expanding voting access, increasing transparency in the State House, and making public participation easier through remote access and community engagement.

If elected, I intend to maintain regular office hours, hold public forums throughout the district, and provide frequent updates via social media, website, and newsletter so constituents understand not only how I vote, but why I vote the way I do. Democracy works best when people are informed and engaged.

2. Optional/As Applicable: Please indicate work you personally have done to promote transparency, campaign finance reform, legislative rules reform, and access to voting.

Transparency and constituent engagement have been core priorities of my campaign. Early in the race, I committed to office hours at local businesses twice a month, town halls twice a year, and a monthly newsletter explaining my platform and goals; I am proud that I have kept those promises. I am also consistently present at public events in each of the communities I am running to represent. I support strengthening public records laws, expanding government transparency, improving legislative accountability, and increasing public participation in government, and I have been intentional in reaching out to and meeting with leaders promoting these changes. I will be a consistent defender of these values in the State House.

3. **Accessibility.** Central to good government is accessibility and responsiveness. Would you commit to the following?

- a. Sending out a newsletter that includes explanations of recent votes at least once per month? **YES**
- b. Holding office hours on weeknights or weekends at least once per month? **YES**
- c. Holding town halls in your district at least twice per year? **YES**

4. **Public Records Law.** Massachusetts is the only state where the Governor's Office, the

Legislature, and the Judiciary claim full exemptions from the public records laws. Do you support the ballot initiative to eliminate these exemptions? **YES, as long as it is written so that the systems responsible for fulfilling the goals of the bill are**

5. **Legislative Accountability.** Massachusetts's system of 'leadership stipends' is an outlier among the 50 states. Do you support the ballot initiative to reform this system to create a fairer pay structure and hold committees to higher standards of transparency and productivity? **YES**
6. **Legislative Research Bureau.** The Massachusetts legislature is the only legislature in the nation without a professional, non-partisan research bureau. Would you support the creation of such an office? **YES**
7. **Expanding Access to Public Meetings.** Would you support updating Open Meeting Law so that people can choose to participate remotely in public meetings on a permanent basis and providing the necessary funds to municipalities to implement this? **YES**
8. **Same Day Registration.** Massachusetts lags behind other states in making voting accessible for all. Do you support eliminating Massachusetts's arbitrary and exclusionary 10-day voter registration cutoff and allowing voters to register or update their registration at the polls on Election Day and during the early voting period? **YES**
9. **Inactive Voter Lists.** Massachusetts is the *only* state in the country where voters are placed on the Inactive Voter List—one step before being removed from the voter rolls—if they fail to return our annual municipal census. Do you support removing this barrier to participation? **NO (I am concerned that by decoupling the voter rolls and municipal census, we would lose voting as an avenue to verify addresses. The important role census information (including address) plays in decision-making for grants and public services cannot be understated, and I strongly believe we should avoid any action to potentially undermine its collection. Currently, people who have not returned the census for two consecutive years must show identification containing their registered address when they come to vote, essentially accomplishing what would have occurred if they had completed the census. However, I recognize this becomes a barrier to voting when there is not adequate warning that a person is being moved to the inactive voter list, which is why I support requiring advance written notification so there is ample time to prepare ID or re-register to vote.)**
10. **Ranked Choice Voting.** Would you support legislation to allow cities and towns to adopt ranked choice voting in local elections? **YES**
11. **Universal Voting Rights.** Would you support restoring the franchise to incarcerated individuals serving time for felony convictions (Their right to vote was taken away by ballot twenty years ago)? **YES**

J. Sustainable Infrastructure and Environmental Protection

As a coastal state, Massachusetts will be hit particularly hard by climate change, but we are not responding with the necessary urgency. Massachusetts has ambitious and necessary greenhouse gas reduction goals, but we are [not on track](#) to meet them. Our state remains overly dependent on fossil fuels like oil and gas despite the pollution and myriad public health harms they produce and the ample [data](#) showing that we must leave fossil fuels in the ground. As we now face a federal government hostile to renewable and climate action, the responsibility lies with state government to take leadership in accelerating a green energy transition and ensuring that equity is at the forefront.

Public transit must play a role in decarbonizing our transportation system, as well as advancing complementary goals of equity and inclusion. However, Massachusetts politicians have lost their understanding of public transit as a public good that benefits all residents and businesses in Massachusetts, not just those who use it in their daily lives. The greatest evidence of this is their neglect of the MBTA: it would need [more than \\$24 billion](#) to bring infrastructure and equipment up to a state of good repair. Regional Transit Authorities that serve communities, including Gateway Cities across the state, face enormous capital needs as well.

Despite recent progress, Massachusetts is still overwhelmingly dependent on fossil fuels.

Transportation is currently the largest contributor to greenhouse gas emissions in MA.

1. Please explain your principles and proposals relative to sustainable infrastructure and environmental protection.

Climate change is one of the most urgent challenges facing Massachusetts. We are already experiencing its effects through extreme weather, flooding, rising energy costs, and threats to public health and infrastructure. Addressing these challenges requires bold action that both reduces emissions and prepares our communities for a changing climate.

I support accelerating the transition to clean energy, investing in resilient infrastructure, protecting our air and water, expanding public transportation, and ensuring that the largest polluters are held accountable for the costs they impose on our communities.

Climate policy must also create good-paying union jobs and prioritize environmental justice so that communities disproportionately impacted by pollution are not left behind. Massachusetts has the opportunity to be a national leader in climate action while building a stronger, more equitable economy for future generations.

2. Optional/As Applicable: Please indicate work you personally have done to protect the environment and expand access to public transportation.

I am proud to say that I have spent the last several years as an environmental policy advocate and have held leadership roles in organizations including the Sunrise Movement, Catholic Climate Covenant, and GreenFaith. Currently, I am a policy advisor for Massachusetts Interfaith Power and Light and serve as their representative to the Mass Power Forward coalition. While attending college in New York State, I worked to pass and implement their climate change superfund, an initiative I am committed to bringing to Massachusetts in the form of "Make Polluters Pay". I also worked to pass a bill eliminating a loophole utility companies had been using to overcharge New Yorkers a total of \$600M annually. Those same loopholes exist here in Massachusetts and I am committed to finding and closing them. Throughout my campaign, I have strongly emphasized my support for many of the initiatives listed below.

3. **Fossil Fuel Infrastructure.** Do you oppose the expansion of fossil fuel infrastructure in the state? **YES**
4. **Make Polluters Pay.** Do you support holding the corporations who are most responsible for causing global climate change financially accountable to pay for damages caused by climate driven extreme weather and the infrastructure improvements needed for resilience? **YES**
5. **Expanding Solar Coverage.** Would you support legislation to create permanent incentives for siting solar projects where they have the least environmental impact, i.e., on buildings and disturbed land? **YES**

6. **Banning Predatory Industry Practices.** Third-party electricity suppliers notoriously give confusing or misleading offers and often target low-income and older adults. Would you support banning third-party electricity suppliers that sell directly to residents? **YES**
7. **Utility Accountability.** Would you support legislation that restricts investor-owned utilities' profits, including but not limited their ability to recover lobbying, advertisement, trade association dues, and investor relations expenses on utility bills? **YES**
8. **Data Centers.** Data centers across Massachusetts and the country have been driving heavier energy and water usage, leading to higher costs for everyday customers. Would you support the following measures...?
 - a. Requiring primary-use data centers to pay for the cost of utility infrastructure upgrades, procure renewable back-up energy sources, and provide quarterly water and energy usage data? **YES**
 - b. Imposing a moratorium on new large-load data centers while a commission is convened to define appropriate community and environmental regulations? **YES**
 - c. Repealing tax exemptions for data centers? **YES**
9. **Plastic Bag Ban.** Would you support a statewide ban on single-use plastic bags? **YES**
10. **Electrifying Public Transit.** In Massachusetts, 43 percent of GHG emissions in 2016 came from transportation infrastructure and vehicles. Tackling this will require a shift away from cars and toward public transit, as well as electrification of both. Would you support requiring the MBTA to operate an all-electric system by 2035? **YES**
11. **Free Public Transit.** Do you support making public transit in the Commonwealth fare-free? **YES**

III. ADDITIONAL COMMENTS

Limit answer to 150 words or fewer.

Use this space to add any other issues important to your vision for Massachusetts or any other matter you think progressive voters should know about your candidacy.
